

# INVEST IN SUSTAINABILITY

## AND HOW YOUR INVESTMENT CAN GIVE BACK

SCA is one of the longest acting non profit environmental groups in the panhandle of Idaho. Over our 35 years we have been on the front lines fighting for the conservation and restoration of our regions precious natural resources - Land, Air, Forests, Wildlife & Water. SCA has three primary "Pillar" programs - Environmental Advocacy, Environmental Education & Scientific Research. We are powered by volunteers, members, and sponsors. Together our community is investing in sustainability for generations to come.
